

## **Healthy Living Group 10<sup>th</sup> December 2012**

- DC
- JF
- UG
- BH
- B and P D
- RS
- Joanne Jenkins (artist)
- Staff - Clair Liversidge and Mandy Neville

Joanne discussed options of where the site of the piece of public art

### **Suggested two sites**

One on the staircase and one on the landing.

### **Research**

Joanne mentioned her research on what people liked about Foxhill it was from questionnaires to the art group, patients and staff.

They fed back they liked the views, countryside and amenities.

Colour suggestions include greens, pastels and bright

Images Suggested – Landscape, Working together and nature (also following a path)

The herbalist element was given positive feedback they liked the idea of presenting beautiful herbs and the attributes of herbs in the images.

### **Group Discussion**

The group had a discussion of the questionnaire results and options of where the art work should be sited. It was agreed the two sites MN and JJ suggested of the stair case for a big art work and a smaller piece of art work on the corridor would be ideal

The smaller piece it was agreed should have a focus on the holistic way Foxhill MC views health and in particular the herbal methods used in the practice. JJ to discuss options with Bendle. However the group liked the idea of 3 (linked pieces).

The main images on the Stairwell

Mr D suggested a steel theme but it was felt this may be more a city wide as opposed to a local theme.

It was discussed that maybe a large opinion with a path looking at the past to the future of Foxhill and the medical centre. Maybe even climbing up a hill from past to present using a path. Joanne said she could use mixed media and even stitching in words and names etc. She suggested layers of hill.

### Plan

- To ask Dr Anderson's family, Ian Davidson and Lisa Mussel for images
- Advertising a poster asking for images of the local area in the past
- Mr and Mrs D to look for images at home
- Joanne to research on line and library
- To check with staff the plan so far is okay
- Joanne to do some provisional drawings/idea boards

### **Next Meeting after the move and the survey**
